Why Should Roentgenology Be Practiced Only by the Physician? By W. Lehmann, M. D.179
Fatty Degeneration of the Heart. By P. M. Lussan, M. D.181
Radical Mastoid Operation for Chronic Suppuration of the Middle Ear. By Cullen F. Welty, M. D.184
Clinical Findings Usually Overlooked in Mucomembranous Enterocolitis. By Jno. J. Gaynor, M. D.185
(Continued on Page v.)

ENTERED JUNE 6, 1905, AT SAN FRANCISCO, CAL., AS SECOND-CLASS MATTER.

HIGHLAND BRAND EVAPORATED CREAM IS THE SIMPLEST YET MOST COMPLETE FOOD FOR INFANTS

From our Model Dairy Farms we obtain *milk of the highest quality*—sterilize it, and evaporate it down to a cream-like consistency. Our special treatment of the casein, while being heated, makes it more easy of digestion and more readily assimilated than raw milk. *Clean milk is absolutely essential in infant feeding.* Highland Brand Evaporated Cream is the cleanest of milk—pure, germ-free, of uniform composition—and always ready.

TRIAL QUANTITY TO PHYSICIANS ON REQUEST

THE HELVETIA MILK CONDENSING CO., Highland, Ill.

Oakland College of Medicine and Surgery

Corner Thirty-first and Grove Streets, Oakland, California

FACULTY

FRANK L. ADAMS, A. B., M. D., Professor of Clinical Surgery.
D. D. CROWLEY, M. D., Professor of Principles and Practice of Surgery and of Clinical Surgery.
ROBERT T. STRATTON, M. D., Professor of Surgical Anatomy and Surgical Diseases of the Nervous System.
HAYWARD G. THOMAS, M. D., Professor of Ophthalmology, Otology and Laryngology.
CARL RUDOLPH KRONE, A. M., M. D., Professor of Medicine, Acting Professor of Physiology.
JOSEPH L. MILTON, M. D., Professor of Anatomy.
EDWARD NORTON EWER, M. D., Professor of Obstetrics.
W. FRANCIS B. WAKEFIELD, M. B., M. D. C. M., Professor of Gynecology.
OLIVER D. HAMLIN, M. D., Associate Professor of Medicine.
WILLIAM S. PORTER, M. D., Associate Professor of Gynecology.
JEREMIAH MAHER, A. M., M. D., Professor of Pediatrics.
WILLIAM KELLEY SANBORN, Ph. G., M. D., Professor of Materia Medica and Therapeutics.

HON. S. P. HALL, Professor of Medical Jurisprudence.
WILLIAM P. MILLIKEN, B. S., Professor of Chemistry and Toxicology.
THOMAS C. McCLEAVE, M. D., Lecturer in Pathology and Histology.
THOMAS J. CLARK, M. D., Lecturer in Dermatology.
LEMUEL P. ADAMS, A. B., M. D., Demonstrator of Anatomy.
JAMES BURRIS WOOD, B. S., M. D., Lecturer in Organic and Applied Chemistry.
THOMAS A. WILLIAMS, M. D., Lecturer in Bacteriology.
ALEXANDER S. KELLY, M. D., Lecturer in Physiology.
ALLEN F. GILLIHAN, M. D., Lecturer in Histology.
BENJAMIN F. BAKEWELL, M. D., Demonstrator of Anatomy.
M. LEWIS EMERSON, M. D., Demonstrator of Pathology.
DUDLEY SMITH, M. D., Lecturer in Materia Medica and Therapeutics.
GEORGE G. REINLE, M. D., Clinical Assistant in General Medicine.

REQUIREMENTS FOR ADMISSION.

One of the following qualifications: (a) A certificate showing that the applicant has passed the regular examinations for admission to the University of California, Stanford University or any other University or College whose standard of admission is equivalent; provided that students deficient in Latin may be allowed one year to make up such deficiency. (b) A certificate of graduation from an accredited high school or academy. (c) A certificate of graduation from a normal school established by State authority. Attendance is required upon four regular courses of lectures of eight months each. FEES.—Matriculation Fee (paid but once) \$5.00; Practical Anatomy Fee for each of two years. \$10.00; Tuition Fee (for each year of attendance), \$100.00; Graduating Fee (paid but once, but not returnable), \$25.00. Laboratory Fees are charged to cover the actual cost of material used.

Address all letters regarding College matters to EDWARD N. EWER, M. D., Registrar, 1111 Washington St., Oakland.

"The Preparation which made Coca known as a Remedy!"

VIN MARIANI

Introduced Half a Century Ago, Maintains Inimitable Excellence.

FORMULA: VIN MARIANI combines in an agreeable and nutritious French Grape Wine the Unique Medicinal Properties of Specially selected Erythroxylon Coca. Each half-litre bottle represents the Aromatic and Desirable Constituents of Two Ounces of Fresh Coca.

MODE OF ADMINISTRATION.

ADULTS: The usual portion is a wineglassful directly before, or after each meal.

CHILDREN: A proportionate quantity according to age and necessity.

VIN MARIANI is absolutely pure, contains no harmful ingredient, and is entirely free from unpleasant after effects. It may be employed as frequently and as liberally as directed by the physician.

GOVERNMENTAL ANALYSIS MADE AT THE PARIS MUNICIPAL LABORATORY.

Quantitative analysis number 247.
The Director of the Municipal Laboratoire de Chimie certifies Vin Mariani represents exactly:

Density, at 15° C.	1.014
Alcohol, percentage in volume, at 17°	17.07
By weight, per litre	142.9
Extractive, at 100° in grams, per litre	87.36
Sugar, before inversion, per litre	41.60
reduced after inversion, per litre	68.80
Sulphate of potassium, in grams, per litre	0.91
Tartrate, in grams, per litre	1.85
Ash	2.24
Acid, calculated as sulphuric	3.13
Acid sulphurous	none
Acid salicylic	none
Saccharin	none
Coloring matter	nothing abnormal
Deviation of polarimeter, before inversion +2°44'	
after inversion -2°16'	
Coca bases, combined, in grams, per litre	0.220

(Signed) GIRARD, Chemist,

Listerine Dermatic Soap

An antiseptic detergent for use in
the antiseptic treatment of
diseases of the skin.

LISTERINE "Dermatic" Soap contains the essential antiseptic constituents of eucalyptus (1%), mentha, gaultheria and thyme (ea. $\frac{1}{4}\%$), which enter into the composition of the well-known antiseptic preparation Listerine, while the quality of excellence of the soap-stock employed as the vehicle for this medication, will be readily apparent when used upon the most delicate skin, and upon the scalp. Listerine "Dermatic" Soap contains no animal fats, and none but the very best vegetable oils; after its manufacture, and before it is "milled" and pressed into cakes, a high percentage of an emollient oil is incorporated with the soap, and the smooth, elastic condition of the skin secured by using Listerine "Dermatic" Soap is largely due to the presence of this ingredient. Unusual care is exercised in the preparation of Listerine "Dermatic" Soap, and as the antiseptic constituents of Listerine are added to the soap after it has received its surplus of unsaponified emollient oil, they retain their peculiar antiseptic virtues and fragrance.

A sample of Listerine Dermatic Soap may be had upon application to the Manufacturers

KASAGRA

VERY ACTIVE

Use Kasagra in the same-sized doses as the bitter fluid extract of cascara sagrada—their activity is equal.

Kasagra is a palatable fluid extract of cascara, undeprived of the valuable tonic principle. We believe it is the only palatable fluid cascara containing this principle.

Occasionally cascara is employed as a simple laxative: but usually its tonic effect on the intestine is desired. In either case Kasagra is always completely satisfactory. Its activity—derived wholly from cascara—has not been sacrificed to palatability. Only the choicest two-year-old bark is used in its manufacture.

It is the most active palatable preparation—the most palatable active preparation.

Sixteen years' use by the medical profession has established it securely as the leading cascara preparation of the world.

Druggists know it only as Kasagra—therefore the only way to be sure of getting it is to write

KASAGRA

on your prescription.

1000 Units	\$2.00
2000 "	3.50
3000 "	5.00
4000 "	6.50

As to the Comparative Antitoxic Value of Serums Produced by Government Inspected Plants there can be no valid claim for greater virtue in the high-priced serums. Government inspection is rigid, and the measure of Toxin-neutralizing units must not be less than is stated on the label of each package; therefore, a 1000, or a 2000, or a 3000, or a 4000 unit package of our XX or X serum ABSOLUTELY EQUALS IN ANTITOXIC AND LIFE-SAVING VALUE a package containing a corresponding number of units of the highest-priced serum on the market.

Our Piston-Syringe Container is the safest and easiest to use of any. It is made ready for use more quickly than an ordinary hypodermic syringe, and in its use there is no danger to operator or patient as there is when glass-breaking devices are used. Serum is stored in it under rigidly aseptic conditions and comes in contact with glass and pure rubber only.

**SMITH, KLINE & FRENCH CO.
PHILADELPHIA**

Approximate Composition: Egg, 5%; Sugar of Milk, 47½%; Combined Cereals, Oats, Wheat and Barley, 47½%

The following analysis of Eskay's Food, by Dr. Lafayette B. Mendel, Sheffield Laboratory of Physiological Chemistry, Yale University, will be of interest:

ANALYSIS

	ESKAY'S FOOD	Human Milk (for comparison) Average Analysis
Water.....	84.46	86.78
Total Solids.....	15.54	13.26
Fats.....	8.07	4.00
Proteids.....	2.78	2.00
Inorganic salts.....	0.58	.20
Carbohydrates.....	9.11	6.98

For the above analysis the Food was prepared as follows: Eskay's Food, 5 tablespoonfuls; Hot Water, 1 pint; Rich Cow's Milk, 2 pints. (As directed in 6 to 12 months formula) The reaction to litmus was amphoteric.

A. M. A. Principles of Ethics:

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

ALKALOMETRY

(ALKALOIDAL MEDICATION)

NO MONOPOLY!

BUT—DON'T LET OUR IMITATORS DECEIVE YOU!!!

**THE SOLUTION OF THE PROPRIETARY QUESTION IS THE USE OF THE ALKALOIDS—
ACTIVE-PRINCIPLE THERAPY**

There is no monopoly upon the active principles. Everything is, technically, wide open.

Every druggist in the United States may, if he can, make and supply them without paying any one for the privilege.

In fact, every large manufacturer of pills and tablets in the world now carries many or a few of these agents upon his list.

Nevertheless, physicians should not fall into the error of supposing that even these agents from different houses are invariably alike because their mere names are identical.

On the contrary, there is an enormous and dangerous variability in many of these preparations as presented by different manufacturers for the use of the physician.

In the W-A Text-Book of Alkaloidal Therapeutics, page 2, are mentioned five aconitines, whose total daily doses vary from gr. 1-20 to 15 grains, while aconitine, A. A. Co. (standard) is usually (and always safely and efficiently) given in doses of gr. 1-134, frequently repeated till the desired effect is produced.

The Abbott Alkaloidal Co. makes it its business to secure or make the best preparations which it is possible to obtain, to secure or make these always of exactly the same strength, and to put them up and out in exactly the same way; and that is why "Abbott quality" is not approached by any of our imitators.

For instance: Of many millions of aconitine granules sent out during the past ten years, no two lots

have ever been found to differ in strength.

This result is obtained by the care taken to secure the alkaloids in exactly the same form, and from the same manufacturers, and by the continuous employment of specially skilled operatives to prepare them in granules and tablets that are just right.

As an example of the care which is taken to secure quality, we buy especially purified sulphocarbolates for that "Prince of Specialties," the "W-A Intestinal Antiseptic," by the ton, and pay far more than the ordinary market price for commercial goods. That's why our sulphocarbolates are just right.

This is but one instance of many in which the question of cost is not considered, as it never is by us, where quality is in question.

For these reasons we invariably decline to enter upon a contest over prices. There are other things more important to the physician than cheapness, and among these absolute certainty as to quality and strength (absolute dependability) is not the least.

Of course, if one were to go into the open market and buy the cheapest thing offered under the same name, as many do, and employ the cheapest labor to work this material up into granules, a considerable reduction might be made in prices, but what do you get for the risk you run?

Good drugs are cheap enough. Nothing is too good for the doctor. Our goods are right—right from start to finish. If you are interested, write and say so, mentioning this advertisement.

MEDICAL BOOKS**Electricity in Facial Blemishes**

By the late Plym S. Hayes, A.M., M.D., Prof. of Gynecology and Electro-Therapeutics, Chicago Polyclinic, etc. 128 pages bound in cloth. Has been before the profession several years and is still very popular. Teaches the Histology and Pathology of the matter as well as the theory and application of Electrolysis in epilation and removal of moles.

Price, postpaid, \$1.00

The Skin: Its Care and Treatment

A very helpful volume of 246 pages substantially bound in cloth. Contains 29 full page half-tone plates showing the manner of procedure in Electric Scalp and Facial Massage, the removal of blemishes such as Superfluous Hair, Moles, and Warts, by Electrolysis, the treatment of blackheads, pimples, etc.

31 Instructive Chapters
Price Postpaid, \$1.50

McIntosh Universal Wall Cabinet
No. 8

The most elaborate and complete outfit ever offered to the profession, embracing all features of a first class office switch-board. It may be operated in connection with either direct or alternating current and gives Galvanic, High Tension Faradic, Sinusoidal, Cautery and Diagnostic Lamp Currents. A multiplicity of combined currents is offered by our new Current Combiner Switch. A separate circuit is provided for diagnostic lamps.

The cautery current is obtained from the lighting circuit and the sinusoidal current is secured from direct as well as alternating circuits. This outfit offers a range of effects not heretofore obtained except from very costly apparatus, and at a price within reach of all.

We have a full line of Wall Cabinets, some as low as..... \$40.50

A NEW JOURNAL**"The Armamentarium"**

A very up-to-date little periodical giving very valuable matter on the subject of electrotherapy, covering the mechanical side as well as the therapeutic features. During the year 1905 a number of articles from the pen of Dr. C. S. Neiswanger will appear in our columns. No pains will be spared to make this journal attractive and interesting to the reader, and we bespeak the hearty support of all who use electricity in medicine. Subscription price placed for a brief period at **25c Per Annum**. Ask for Sample Copy

SOMETHING NEW!**No. 95 Neiswanger's Vaginal Electrode**

A one inch perforated copper ball mounted on an insulated brass tube nine inches in length. Useful in Galvanization, Faradization, Metallic Electrolysis, Cataphoresis or Irrigation. Recently sold at \$3.00, now priced at \$2.25 postpaid.

OUR NEW CATALOGUE No. 26 G shows REDUCED PRICES on all of our standard goods as well as a number of new and pleasing designs in Batteries, Wall Plates, Electrodes, Cautery Transformers, Static Machines, High Frequency Apparatus, etc. Mailed free upon request.

A. M. A. Principles of Ethics:

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

The clinical value of a food for the sick depends upon

1. The amount of its nutrient material.
2. The character and condition of same.

Liquid Peptonoids

contains 18.52% total solids.

Proteids, 5.07%; Carbohydrates, Ash, etc., 13.45%
Alcohol (by wt) 13.99%.—(Analysis, Prof. Frank T. Green,
Assoc. Prof. Physiol. Chem., U. of Cal.)

Unlike milk, beef juice, etc., the above food material is completely and immediately available for absorption and appropriation without digestive mediation.

Liquid Peptonoids, because of its stimulating and restorative properties, is of special service in Adynamic conditions as a conservator of vitality—Typhoid, Pneumonia, etc.—or the more chronic conditions of ill health typified by the underfed Neurasthenic.

Dose: One to two tablespoonfuls 3 to 6 times a day.

Children in proportion.

THE ARLINGTON CHEMICAL CO.

CARROD SPA LITHIA WATER

*A Powerful Remedy for Diseases of the Uric Acid
Diathesis. Is the Best Lithia Water on the Market*

Contains Lithium bicarbonate, xiv grs.; Magnesium bicarbonate, x grs.; Potassium bicarbonate, xvi grs., Sodium Chloride, x grs.; Carbonated Water, xvi oz.

UNION DRUG COMPANY, Agents

400 Sutter Street

SAN FRANCISCO

TRI-IODIDES (HENRY'S) LIQUOR SALI-IODIDES.

Colchicin. 1-20 grain. Phytolaccin, 1-10 grain. Solanin, 1-3 grain. Soda Salicylate, 10 grains. Iodic Acid, equal to -32 grains Iodine. Aromatic Cordial. Dose 1 to 2 drams in water. 8-oz. bottle, \$1.00.

A powerful alterative and resolvent, glandular and hepatic stimulant, and succedaneum to the iodides. Indicated in all conditions dependent upon perverted tissue metabolism; in lymphatic engorgements and functional visceral disturbances; in lingering rheumatic pains which are "worse at night." Bone, periosteal and visceral symptoms of late syphilis; for the removal of all inflammatory, plastic and gouty deposits.

A remedy in sciatica, megrim, neuralgias, lumbago and muscular pains; the gouty and rheumatic diathesis; acute and chronic rheumatism and gout; chronic eczema and psoriasis, and all

dermic disorders in which there is underlying blood taint.

An hepatic stimulant increasing the quantity and fluidity of the bile. Relieves hepatic and intestinal torpor; does not cause the unpleasant gastric symptoms of potassium iodide.

THREE CHLORIDES (HENRY'S) LIQUOR FERRIBENIC.

Each drachm contains Proto-Chlor. Iron, 1-8 gr.; Bi-Chlor. Mercury, 1-128 gr.; Chloride Arsenic, 1-280 gr.; Calisaya Cordial. Dose, 1 to 2 drachms. 12-oz. bottle, \$1.00.

An oxygen-carrying ferruginous preparation, suitable for prolonged treatment of children, adults and the aged. Indicated in anemia and bodily weakness, convalescence from acute diseases and surgical operations; boys and girls at the age of puberty, and the climacteric period in women. In children with chorea, rickets, or who are backward in development, or in whom there exists an aversion to meats and fats. Prolonged administration never causes "iron headache."

As an adjuvant for potassium iodide the undesirable manifestations known as iodism can be removed. Stimulant to the peptic and hydrochloric glandular system of the stomach, especially serviceable in the impaired appetite, nausea, vomiting and other gastric symptoms of alcoholic subjects.

MAIZO-LITHIUM (HENRY'S) LIQUOR LITHIUM MAIZENATE.

Nascent Chemio Union of Maizenic Acid—from Green Corn Silb—with Lithium, forming Maizenate-Lithium. Two grains to drachm. Dose, 1 to 2 drachms. 8-oz. bottle, \$1.00.

A genito-urinary sedative, an active diuretic; solvent and flush indicated for the relief and prevention of renal colic; a sedative in the acute stages of gonorrhea, cystitis and epididymitis; in dropsical effusions due to enfeebled heart or to renal diseases. As a solvent in the varied manifestations of gout, goutiness and neurotic lithemia, periodical migrainous headache, epigastric oppression, cardiac palpitation, irregular, weak or intermittent pulse; irritability, moodiness, insomnia and other nervous symptoms of uric acidemia. *Decidedly better, more economical, extensive*

sive in action and definite in results than mineral waters.

Those cases of irritable heart, irregular or intermittent pulse so frequently met with by insurance examiners and found to be due to excess of uric acid, are special indication for Maizo-Lithium.

HENRY PHARMACAL CO., LOUISVILLE, KY.

A. M. A. Principles of Ethics:

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

Cystogen Aperient
GRANULAR EFFERVESCENT SALT OF CYSTOGEN

*An Anti-Uric Aperient and Urinary Antiseptic,
Eliminant and Prophylactic.*

CYSTOGEN APERIENT WILL PREVENT INVOLVEMENT OF THE KIDNEYS DURING THE COURSE OF INFECTIOUS DISEASES.

An effective prophylactic in all febrile conditions, particularly scarlet fever, diphtheria, typhoid and other infectious diseases accompanied by high temperature and retarding the activity of the kidneys. Stimulates excretion of urine and flushes the entire urinary tract with a dilute solution of formaldehyd, thus rendering the urine sterile. Inhibits the growth of pyogenic bacteria and prevents decomposition of urine.

Prevents formation of uric acid accumulations and dissolves concretions in their incipency.

CYSTOGEN APERIENT is particularly valuable in Gout, Rheumatism, Calculus, Cystitis, Gonorrhoea and all Infectious Fevers.

Dose: A heaping teaspoonful in water three or four times daily.

Samples and literature will be furnished on request of physicians.

CYSTOGEN CHEMICAL CO., St. Louis, U. S. A.

Formula—Cystogen, (Hexamethylene-tetramin) 5 grs.; Sodium phosphate, 30 grs.; effervescent mixture q. s. to the teaspoonful, (tartaric acid, citric acid, bicarbonate of soda.)

Dioxogen

H_2O_2 3%

Differs from other solutions of H_2O_2 in that it is
DEPENDABLE

It is uniformly even in strength and purity and remarkable for its keeping qualities.

It is made solely for Medical, Surgical, and Dental uses, and should not be confounded with the commercial Peroxide of Hydrogen used for bleaching and other technical purposes which frequently contains impurities that are harmful and in some cases dangerous

TULARE ✽ CALIFORNIA

THE HOSPITAL OF THE GOOD SAMARITAN

934 WEST SEVENTH STREET, LOS ANGELES, CAL.

The hospital of the Good Samaritan, located at 934 West 7th Street, is an institution of 100 rooms. A Diocesan Hospital owned and managed by the Episcopal Churches of Southern California, but undenominational in its benefits, being a general hospital for the reception of patients irrespective of nationality or creed. The Hospital was established in 1887 and has always been one of the foremost institutions of its kind in Southern California. Its new and beautiful buildings are located 10 minutes' ride from the heart of the city within one block of five street car lines. It has an equipment equal to the most modern hospitals of the East, having a continuous high pressure steam plant, admirable systems of heating and ventilation, a signal and telephone system, sanitary plumbing, modern kitchen, up-to-date operating rooms, obstetrical and children's departments and facilities for laboratory work.

OPERATING ROOM.

There are four operating rooms on different floors for different purposes. The main operating pavilion of eight rooms is provided with furniture and apparatus especially made to order for this hospital. This department is supplied continuously with high pressure steam and with both direct and alternating electrical currents.

OBSTETRICAL DEPARTMENT.

The obstetrical department is equipped with confinement, operating and sterilizing room, nursery and incubator.

CHILDREN'S DEPARTMENT.

The children's department comprises a ward of nine beds and nine private rooms in the main building, a large garden with tents for those who thrive best out of doors. Spacious playgrounds and a treatment department containing an X-Ray room, plaster room, electricity and massage rooms and gymnasium; also a sun room for the administration of Violet rays in tubercular joint disease.

LABORATORY FACILITIES.

A laboratory has been provided for the use of the training school as well as the profession, containing an autoclave, incubator, hot air oven, centrifuge microscope, microtome, etc.

SIGNAL SYSTEM.

The institution is also fortunate in having had installed a signal call system throughout which eliminates the old fashioned bell service, thus doing away with the noise of the bells and insuring a prompt response to a patient's call.

A. M. A. Principles of Ethics:

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

THE POTTENGER SANATORIUM FOR DISEASES OF THE LUNGS AND THROAT

F. M. POTTENGER, Ph. M., M. D., Physician-in-Charge

Located at Monrovia, 16 miles from Los Angeles, in the foothills of the **Sierra Madre Mountains**; 1000 feet above the sea; **free from storms and fogs**; surrounded by mountain scenery, beautiful cañons and gorges, overlooking the San Gabriel Valley with its world-famed orange groves. Three hundred days of sunshine in the year. Best all-year-round climate in the world. The **hygienic-dietetic-fresh-air treatment** is reinforced by all **scientific** measures which will aid in bringing about a recovery. Comfortable and homelike. **Address F. M. POTTENGER, Monrovia, Cal., or 601-603 O. T. Johnson Bldg., Los Angeles, Cal.**

EL SUEÑO

A delightful home for the treatment of brain and nerve diseases and the prevention of mental complications.

Situated at the entrance of the beautiful San Gabriel Valley, eight miles from Los Angeles and three from Pasadena, where climate and scenery promote the restoration of health.

Near both Electric and Steam Railroads.

CLARK'S SANITARIUM

For the care and treatment of Mental and Nervous Diseases and of Morphine and Alcoholic Habits, was established by Dr. Asa Clark, Medical Superintendent of the California State Hospital at Stockton.

The Sanitarium is located in the southwestern part of the City of Stockton and is surrounded by pleasant grounds, containing forty acres. The buildings are two stories in height and cover one acre. Their sanitary condition is perfect. The corridors are wide, airy and light, affording the patients who cannot be trusted out in the grounds, and all others on wet days, ample room for exercise. The appointments are modern and comfortable.

All Modern Electrical, X-Ray, Massage and Electro-Therapeutic Appliances

The food supplies and cooking are of the best; the milk, butter chickens and eggs being products of the place and abundant. Any patient may have a special attendant, if necessary, at a moderate additional cost.

Charges Moderate

Address for further information DR. F. P. CLARK, Medical Supt., or J. M. ANDERSON, Business Manager

DR. PETTEY'S RETREATS

Devoted exclusively to the treatment of

ALCOHOL AND DRUG ADDICTIONS

Memphis, Tenn., Denver, Colo. and Oakland, Calif.

These Institutions are owned and controlled by reputable physicians and are conducted upon strictly ethical lines. They were opened and are maintained solely for the purpose of treating the ALCOHOL AND NARCOTIC DRUG ADDICTIONS by methods based upon the original investigations of Dr. Geo. E. Pettey of Memphis, Tenn., and first published to the profession by him in 1901. (See Therapeutic Gazette, Oct. 1901.)

The method of treatment introduced by Dr. Pettey removes these addictions from the list of almost incurable diseases and renders them the most certainly and readily curable of all the chronic ailments

Dean Secretary

Not to be confounded with so-called "apiol," which is merely an oil of parsley containing more or less of the true active principle, apioline. Professor Laborde's experiments (on animals) prove apioline to have emmenagogue properties, which stimulate the nerve ends of the ovaries and uterus, thus inducing vascular dilatation of the genito-spinal tract.

Dispensed in capsules of 4 minims each.

Dose. One, morning and evening before and during menstruation.
